Portfolio: gulfamashraf-folio.netlify.app

PROFESSIONAL SUMMAR

Full-Stack Web Developer with hands-on experience building and maintaining production Next.js applications, including authenticated dashboards, role-based portals, and data-driven interfaces. Skilled across the modern JavaScript/TypeScript ecosystem — React, Next.js, Node.js, and both SQL and NoSQL databases — with a strong focus on clean UI/UX, debugging complex frontend state issues, and shipping reliable, production-ready code. Currently seeking a Web Developer role to apply this experience on a broader range of products.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript
Frontend: React, Next.js, Tailwind CSS, Recharts, HTML5, CSS3
Backend: Node.js, Express, JWT Authentication, REST APIs
Databases: MongoDB, PostgreSQL
Tools & Practices: Git/GitHub, Netlify, vercel, Responsive Design.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer (On-site)

National Book Foundation (NBF), Islamabad
August 2025 – Present

- Worked as an **On-site Full-Stack Web Developer** at the National Book Foundation (NBF) for one year.
- Collaborated with the development team to design, develop, test, and maintain web applications for the organization.
- Developed frontend and backend features using **React.js, Next.js, Node.js, Express.js, MongoDB, and TypeScript**.
- Integrated RESTful APIs, implemented authentication and authorization, and optimized application performance.
- Participated in code reviews, bug fixing, feature enhancements, and deployment of production-ready applications.
- Built responsive and user-friendly interfaces following modern web development best practices.

PROJECTS

National Book Foundation (NBF) Website

Tech Stack: MERN Stack, Next.js, TypeScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed the official **National Book Foundation (NBF)** website using the MERN Stack and Next.js.
- Designed and implemented a complete **Author Portal** where authors can register, log in, submit manuscripts, track submission status, and manage their profiles.
- Developed the **Book Preparation Cycle Portal** to monitor and manage every stage of the book publishing process.
- Implemented secure authentication, role-based access control, protected routes, and session management.
- Built responsive dashboards, reusable UI components, and dynamic forms for desktop and mobile devices.
- Integrated RESTful APIs and optimized frontend performance to deliver a smooth user experience.
- Collaborated with team members to add new features, resolve bugs, and improve the maintainability of the application.

Metro Bus Tracking System

Tech Stack: MERN Stack, TypeScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack Metro Bus Tracking System using the MERN Stack with TypeScript.
- Built a real-time bus tracking application with interactive route visualization and live location updates.
- Implemented user authentication, route management, and an admin dashboard.
- Designed responsive interfaces and integrated RESTful APIs for efficient frontend-backend communication.

E-Commerce Website

Tech Stack: MERN Stack, TypeScript, Next.js, React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack e-commerce website using the MERN Stack with TypeScript.
- Implemented user authentication, product catalog, shopping cart and secure checkout functionality.
- Built an admin dashboard for managing products, categories, inventory, and customer orders.
- Developed scalable backend services and integrated RESTful APIs using Node.js, Express.js, and MongoDB.

EDUCATION

BSc (IET) — Information Engineering Technology

2022 – 2026

National Skills University Islamabad

CGPA 3.79/4.00
